

Helsinki Region Infoshare

-open data

Ville Meloni

Project manager – Helsinki Region Infoshare

Forum Virium Helsinki

OPEN DATA,
DESIGN, INTERFACES
AND INNOVATION

Forum Virium Helsinki Annual Seminar Thursday 11 March 2010

Joint effort of **City of Helsinki Urban Facts**, the municipalities of Helsinki region, municipal organizations and Forum Virium Helsinki to:

OPEN
PUBLIC
SECTOR
DATA

WHAT DATA - Urban facts statistics (initial scope)

- Population, income, living conditions
- Employment, business, construction, environment, etc.
- + **Also other data**, step by step, per user requests

WHY - Better access to data for everyone facilitates

- Research, service creation, new business, citizen participation, driving innovations
- Collaboration among data providers and data utilizers, helping to develop more user driven information services

WHEN - 2010 - 2012

- Starting to open data Q2 2010 -
- Helsinki regional data catalogue BETA eof 2010
- Series of pilots for utilizing the data 2010 -
- 2012: wealth of useful data available via the catalogue, many great cases of utilizing the data
- Iterative approach, a learning process, sharing learnings
- The world is even a better place;-)
